

”SIMC welcomes postdocs–2021”

Steklov Mathematical Institute of RAS

February 18, 2021, room 104

11.00–11.45	G. Kulkarni. Quantum inverse scattering method
11.55–12.40	W. Wang. On finitely generated left-orderable metabelian groups
12.40–13.00	Coffee break
13.00–13.45	D. Gorodkov. Combinatorial computation of characteristic classes
15.00–15.45	A. Soldatenkov. Cohomology of compact hyperkähler manifolds
15.55–16.40	M. Melistas. A divisibility result related to the BSD Conjecture
