One-day conference
dedicated to the memory of academician A. A. Gonchar

Program

Wednesday, December 23

10^{55}–11^{00} *Opening of a conference*

11^{00}–11^{55} Vladimir Dubinin (Institute for Applied Mathematics, Vladivostok)
Symmetrization of condensers and geometrical properties of multivalent functions

11^{55}–12^{15} Coffee-break

12^{15}–13^{19} Evgeny Abakumov (Université Paris-Est)
Proper holomorphic embeddings, radial approximation,
and tropical power series

13^{10}–14^{40} Lunch

14^{40}–15^{35} Yang Chen (University of Macau)
Topics In Random Matrices

15^{45}–16^{40} Mikhail Tyaglov (Shanghai Jiao Tong University)
Finite differences as hyperbolicity preservers

16^{40}–17^{05} Coffee-break

17^{05}–18^{00} Timur Sadykov (Plekhanov Russian State University of Economics, Moscow)
Extremal properties of multivariate hypergeometric polynomials
