Наименование основных научных работ:

1. **Фундаментальное решение задачи Коши, связанной с псевдопараболическим уравнением четвертого порядка "Журнал вычислительной математики и математической физики", 49:1 (2009), 99–110**

2. **Фундаментальное решение начально-краевой задачи для псевдопараболического уравнения четвертого порядка с негладкими коэффициентами** "Владикавказский математический журнал", 12:1 (2010), 17–32
3. **Формула интегрирования по частям неклассического типа при исследовании задачи Гурса для одного псевдопараболического уравнения** "Владикавказский математический журнал", 13:4 (2011), 40–51
4. **Трёхмерная интегро-многоточечная краевая задача для нагруженных вольтерро-гиперболических интегро-дифференциальных уравнений типа Бианки** Вестник Самарского государственного технического университета. Серия «Физико-математические науки», 1(26) (2012), 8–20
5. **Условия оптимальности некоторых процессов, описываемых псевдопараболическим уравнением при нелокальных краевых условиях** Математичне та компютерне моделювання, Серія: Фізико-математичні науки. Випуск 1, 2008, 133-141
6. **Об одной задаче Гурса в пространстве Соболева** Изв. вузов. Матем., 2011, № 2, 54–64
7. **Об одной трёхмерной задаче Гурса нового типа для гиперболического уравнения с разрывными коэффициентами** Вестн. Сам. гос. техн. ун-та. Сер. Физ.-мат. науки, 1(20) (2010), 209–213
8. **Об одной трёхмерной задаче Гурса нового типа для гиперболического уравнения с разрывными коэффициентами** Матем. моделирование и краев. задачи, 3 (2009), 158–160
9. **О новых трёхмерных интегральных представлениях функций в одном анизотропном пространстве С. Л. Соболева** Матем. моделирование и краев. задачи, 3 (2009), 155–157
10. **On correct solvability of a problem with loaded boundary conditions for a fourth order pseudoparabolic equation** Memoirs on Differential Equations and Mathematical Physics, Volume 43, 2008, 107-118
11. **Задача оптимального управления в процессах, описываемых нелокальной задачей с нагружениями для гиперболического интегро-дифференциального уравнения** Известия Национальной Академии Наук Азербайджана. Серия физико-технических и математических наук, 2004, №2, 74-79
12. **Об одной схеме построения сопряженного оператора** Известия Национальной Академии Наук Азербайджана. Серия физико-технических и математических наук, 2004, №2, 90-95
13. **Three-dimensional nonlocal boundary-value problem with integral conditions for loaded volterra-hyperbolic integro-differential equations** Proceedings of IMM of NAS of Azerbaijan, 2005, 153-162
14. **Generalization of multipoint boundary-value problems of Bitsadze-Samarski and Samarski-Ionkin type for fourth order loaded hyperbolic integro-**

differential equations and their operator generalization Proceedings of IMM of NAS of Azerbaijan, 2005, 77-84

15. Смешанная задача с нелокальными краевыми условиями типа Бицадзе–Самарского и Самарского–Ионкина, возникающая при моделировании фильтрации жидкости в трещиноватых средах Изв. НАН Азерб. (сер. физ.-техн. и матем. наук), XXVI:3 (2006), 32–37.
16. Исследование задачи с интегро-многоточечными краевыми условиями для обобщенного уравнения влагопереноса Изв. НАН Азерб. (сер. физ.-техн. и матем. наук), 27:2–3 (2007), 121–126.
17. Задача Гурса нового типа для нагруженных вольтерро-гиперболических интегро-дифференциальных векторных уравнений четвертого порядка с негладкими матричными коэффициентами Изв. НАН Азербайджана. Сер. ФТМН, 26:2 (2006), 74–79.
18. Сопряженный оператор интегрального вида задачи Коши для псевдопараболического уравнения четвертого порядка Изв. НАН Азерб. Сер. физ.-техн. и матем. наук, 2008, том XXVIII, №3, С.70-75.
19. Neumann problem in the non-classical treatment for a pseudoparabolic equation IV International Conference "Problems of Cybernetics and Informatics" (PCI2012), September 12-14, 2012
20. Nonlocal problem with Bitsadze-Samarsky and Samarsky- Ionkin type conditions for a system of pseudoparabolic equations pp 152-154. IV International Conference "Problems of Cybernetics and Informatics" (PCI2012), September 12-14, 2012
21. О корректной разрешимости одной нелокальной задачи Международная конференция по математической физике и ее приложениям. Математический Институт имени В.А. Стеклова, Самарский Государственный Университет. Россия, Самара, 2008 г. С.124-126.
22. О новой постановке трехмерной задачи Гурса для гиперболического уравнения четвертого порядка в анизотропном пространстве С.Л. Соболева Международная научная конференция «Современные проблемы вычислительной математики и математической физики», Секция «Дифференциальные уравнения и математическая физика», Россия, Москва, 2009.
23. A new type Cauchy problem for a pseudoparabolic equation with a fourth order dominating derivative with non-smooth coefficients Mathematics Scientific Journal. ISSN 1560-4055 KEY-TITLE: Mathematics. 4/2006-5/2007, pp.34-40.
24. Integral form adjoint operator of the Goursat problem for a pseudoparabolic equation of fourth order Mathematics Scientific Journal. ISSN 1560-4055 KEY-TITLE: Mathematics. 6/2008, pp.25-35.
25. Об одном новом четырехмерном интегральном представлении функций в анизотропном пространстве С.Л. Соболева с доминирующей смешанной производной Математическое Моделирование И Краевые Задачи. Россия, Самара, 2010 г. С.164-167.

26. **Задача Гурса нового типа для одного четырехмерного уравнения со старшей частной производной** Математическое Моделирование И Краевые Задачи. Россия, Самара, 2010 г. С.167-170.
27. **О новой постановке четырехмерной задачи Гурса для одного псевдопараболического уравнения с негладкими коэффициентами** Российская академия наук Федеральное агентство по образованию. Сибирский федеральный университет. Красноярский государственный торгово-экономический институт. Институт вычислительного моделирования СО РАН. Сибирский институт бизнеса, управления и психологии. Труды Восьмой Международной Конференции По Финансово–Актуарной Математике И Смежным Вопросам. Россия, Красноярск, 2009 г. С.171-175.
28. **Корректно поставленная трехмерная неклассическая начально-краевая задача для одного неклассического гиперболического уравнения четвертого порядка** Российская академия наук Федеральное агентство по образованию. Сибирский федеральный университет. Красноярский государственный торгово-экономический институт. Институт вычислительного моделирования СО РАН. Сибирский институт бизнеса, управления и психологии. Труды Восьмой Международной Конференции По Финансово–Актуарной Математике И Смежным Вопросам. Россия, Красноярск, 2009 г. С.176-178.
29. **One Goursat problem in a Sobolev space** Russian Mathematics, February 2011, Volume 55, Issue 2, pp 46-55.
30. **A fundamental solution to the Cauchy problem for a fourth-order pseudoparabolic equation** Computational Mathematics and Mathematical Physics, January 2009, Volume 49, Issue 1, pp 93-104.
31. **On a Problem with Conditions on All Boundary for a Pseudoparabolic Equation** American Journal of Operational Research 2013, 3(2): 51-56.
32. **Final-boundary value problem in the non-classical treatment for a sixth order pseudoparabolic Equation** Applied and Computational Mathematics 2013; 2(3): 96-99.
33. **Goursat Problem in the Non-Classical Treatment for a Sixth Order Pseudoparabolic Equation** Universal Journal of Computational Mathematics 1(1): 15-18, 2013.
34. **Non-local optimal control problem for Manjeron generalized equation with non-smooth coefficients under separated multi-point initial boundary conditions** pp 62-65. The Second International Conference "Problems of Cybernetics and Informatics" (PCI2008), September 10-12, 2008.
35. **Обобщение комбинированной задачи типа Коши-Гурса-Дарбу для одного псевдопараболического уравнения четвертого порядка** Матем. моделирование и краев. задачи, 3 (2011), 116–119.
36. **Трехмерная нелокальная краевая задача с интегральными условиями для нагруженных гиперболических интегро-дифференциальных уравнений** Матем. моделирование и краев. задачи, 3 (2011), 119—122.

37. **Cauchy Problem in the Non-Classical Treatment for One Pseudoparabolic Equation** *Universal Journal of Computational Mathematics* 2(1): 1-5, 2014.
38. **On correct solvability of a Dirichlet problem for generalized Manjeron equation with non-smooth coefficients** *Cornell University Library* (arXiv:1312.3318).
39. **On four-dimensional Goursat problem in the non-classical treatment for a hyperbolic equation** *Cornell University Library* (arXiv:1303.1036).
40. **Non-local combined problem** *Cornell University Library* (arXiv:1302.3151).
41. **Dirichlet problem in the non-classical treatment for one pseudoparabolic equation of fourth order** *Cornell University Library* (arXiv:1212.6199).
42. **Contact-boundary value problem in the non-classical treatment for one pseudoparabolic equation** *Cornell University Library* (arXiv:1212.6198).

187. **Geometrical middle problem in the non-classical treatment for one generalized Aller equation with non-smooth coefficients** INTERNATIONAL WORKSHOP «SPECTRAL THEORY AND ITS APPLICATIONS», June 07-08,2019,Baku, Azerbaijan,The Institute of Mathematics and Mechanics of Azerbaijan National Academy of Sciences,Book of Abstracts,p.105, Baku-2019.

- 188. One 3D in the Harmonic Middle Problem in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 189. One 3D Combined Boundary Problem of 2D Multi-point-1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 190. One 3D Combined Boundary Problem of 2D Initial -1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 191. One 3D Combined Boundary Problem of 2D in the Middle-1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 192. One 3D Combined Boundary Problem of 2D in the Harmonic Middle -1D Multi-point type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 193. One 3D Combined Boundary Problem of 2D in the Harmonic Middle -1D Initial type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 194. One 3D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 195. One 3D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Geometrical Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 196. One 3D Combined Boundary Problem of 2D in the Harmonic Middle -1D Final type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 197. One 3D Combined Boundary Problem of 2D in the Geometrical Middle -1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 198. One 3D Combined Boundary Problem of 2D Final -1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**

- 199. One 3D Combined Boundary Problem of 1D in the Middle-1D Multi-point-1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 200. One 3D Combined Boundary Problem of 1D in the Harmonic Middle-1D in the Geometrical Middle -1D Initial type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 201. One 3D Combined Boundary Problem of 1D in the Harmonic Middle-1D in the Geometrical Middle -1D in the Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 202. One 3D Combined Boundary Problem of 1D in the Geometrical Middle -1D Multi-point-1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 203. One 3D Combined Boundary Problem of 1D in the Harmonic Middle -1D Multi-point-1D Initial type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 204. One 3D Combined Boundary Problem of 1D Final-1D Multi-point-1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 205. One 3D Combined Boundary Problem of 1D Final-1D in the Harmonic Middle -1D Initial type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 206. One 3D Combined Boundary Problem of 1D Final-1D in the Harmonic Middle -1D in the Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 207. One 3D Combined Boundary Problem of 1D Final-1D in the Geometrical Middle -1D in the Harmonic Middle type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 208. One 3D Combined Boundary Problem of 1D in the Middle -1D in the Harmonic Middle -1D Initial type in the Non-Classical Treatment for 3D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Preprint, 2019.**
- 209. One 4D Combined Boundary Problem of 3D in the Harmonic Middle -1D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**

- 210. One 4D Combined Boundary Problem of 3D in the Middle -1D in the Harmonic Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**
- 211. One 4D Combined Boundary Problem of 2D in the Middle -1D in the Harmonic Middle-1D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Research Proposal, 2019.**
- 212. One 4D Combined Boundary Problem of 2D in the Middle -1D Final-1D in the Harmonic Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Researchgate: Research Proposal, 2019.**
- 213. One 4D Combined Boundary Problem of 2D in the Middle -1D in the Harmonic Middle -1D Initial Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**
- 214. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Middle-1D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate: Research Proposal, 2019.**
- 215. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D Final-1D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**
- 216. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -2D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**
- 217. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Middle-1D Initial Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate: Research Proposal, 2019.**
- 218. One 4D Combined Boundary Problem of 1D in the Harmonic Middle-1D in the Middle -2D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate:Research Proposal, 2019.**
- 219. One 4D Combined Boundary Problem of 1D in the Harmonic Middle -1D in the Middle-2D Final Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 220. One 4D Combined Boundary Problem of 1D in the Harmonic Middle -2D Initial-1D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**

- 221. One 4D in the Harmonic Middle Boundary Problem for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 222. One 4D Combined Boundary Problem of 3D in the Harmonic Middle -1D in the Geometrical Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 223. One 4D Combined Boundary Problem of 3D in the Geometrical Middle -1D in the Harmonic Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 224. One 4D Combined Boundary Problem of 2D in the Middle -1D in the Harmonic Middle-1D in the Geometrical Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 225. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Geometrical Middle-1D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate:Research Proposal, 2019.**
- 226. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Geometrical Middle -1D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 227. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D Final-1D in the Geometrical Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 228. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -2D in the Geometrical Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 229. One 4D Combined Boundary Problem of 2D in the Harmonic Middle -1D in the Geometrical Middle-1D Initial Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 230. One 4D Combined Boundary Problem of 2D in the Geometrical Middle -1D in the Harmonic Middle-1D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate:Research Proposal, 2019.**

- 231. One 4D Combined Boundary Problem of 2D in the Geometrical Middle - 1D in the Harmonic Middle-1D in the Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 232. One 4D Combined Boundary Problem of 2D in the Geometrical Middle - 1D in the Harmonic Middle-1D Initial Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 233. One 4D Combined Boundary Problem of 2D in the Geometrical Middle - 1D Final-1D in the Harmonic Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 234. One 4D Combined Boundary Problem of 1D in the Geometrical Middle- 1D in the Harmonic Middle -2D Multi-Point type in the Non-Classical Treatment for 4D Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes Researchgate:Research Proposal, 2019.**
- 235. One 4D Combined Boundary Problem of 1D in the Geometrical Middle - 1D in the Harmonic Middle-2D Final Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 236. One 4D Combined Boundary Problem of 1D in the Harmonic Middle -2D Initial-1D in the Geometrical Middle Type for 4D Loading Bianchi Equation with Non-Smooth Coefficients, Arising in the Modeling of Vibration Processes and Integral Representation of Solution Researchgate:Research Proposal, 2019.**
- 237. INTEGRAL REPRESENTATION OF SOLUTION OF MIDDLE BOUNDARY PROBLEM FOR ONE INTEGRO-DIFFERENTIAL EQUATION 3D BIANCHI WITH NON-SMOOTH COEFFICIENTS Operators, Functions, and Systems of Mathematical Physics Conference (10-14 June 2019, Khazar University, Baku, Azerbaijan), pp.71-72, Baku-2019.**
- 238. FUNDAMENTAL SOLUTION OF GEOMETRICAL MIDDLE BOUNDARY PROBLEM IN THE NON-CLASSICAL TREATMENT FOR ONE GENERALIZED ALLER EQUATION WITH NON-SMOOTH COEFFICIENTS Operators, Functions, and Systems of Mathematical Physics Conference (10-14 June 2019, Khazar University, Baku, Azerbaijan), pp.74-75, Baku-2019.**
