

## LIST OF PUBLICATIONS

1. *On the multiplicative completion of basic sequences in  $L^p$  to bases in  $L^p, 1 \leq p < \infty$* , Doklady AN Arm.SSR 62 (1976), 203-209. (Russian)
2. *On the bases in the spaces  $L^p, p \geq 1$ , obtained by multiplication of the minimal systems by a function from  $L^p$* , Doklady AN Arm.SSR 64 (1977), 151-155. (Russian)
3. *On bases and unconditional bases in the weighted spaces  $L^p, 1 \leq p < \infty$* , Doklady AN Arm.SSR 65 (1977), 271-275. (Russian)
4. *On the multiplicative completion of some systems*, Izv. Akad. Nauk Armyan. SSR Ser. Mat. 13 (1978), 315-351. (Russian)
5. *On the multiplicative completion of some incomplete orthonormal systems to bases in  $L^p, 1 \leq p < \infty$* , Analysis Mathematica 4 (1978), 37-52. (Russian)
6. *On the logarithmic growth of the arithmetic means of the sums of Lebesgue functions of bounded byorthogonal systems*, Doklady AN Arm.SSR 69 (1979), 140-145. (Russian)
7. *On the basicness of the subsystems of the trigonometrical system in the spaces  $L^p(d\mu)$* , Doklady AN Arm.SSR 69 (1979), 257-259. (Russian)
8. *Multiplicative completion and the construction of some bases in the spaces  $L^p, 1 \leq p < \infty$* , Contemporary problems of function theory, Conf. Proc. Baku (1980), 1-3. (Russian)
9. *The Abel summation of the subsystems of the trigonometrical system in the spaces  $L^p(d\mu), 1 \leq p < \infty$* , Doklady AN Arm.SSR 71 (1980), 257-261. (Russian)
10. *On bases and unconditional bases in the spaces  $L^p(d\mu), 1 \leq p < \infty$* , Studia Math. 71 (1982), 227-249.
11. *On some questions in the theory of orthogonal series*, Math. Sbornik 119 (1982), 278-294. English transl. in Math. USSR Sb. 47 (1984)
12. *On the Dirichlet problem in the weighted metric*, Sov.-Czech. Conference Proc. (1982), 134-136. (Russian)
13. *On some questions in the theory of the orthogonal series*, Short communications, Int. Math. Conf. Proc. Warsaw 7 (1982).
14. *A remark on the divergence of Fourier series*, Izv. Akad. Nauk Armyan. SSR Ser. Mat. 18 (1983), no. 2, 116-123. (Russian) English transl. in Soviet Jour. Contem. Math. Anal., 18 (1983)
15. *The Abel summation of the conjugate trigonometrical series in the weighted spaces  $L^p$  and the weighted  $H^p$  spaces,  $1 \leq p < \infty$* , Doklady AN Arm.SSR 77 (1983), 59-63. (Russian)
16. *Multiplicative completion of uniformly bounded orthonormal systems to bases in  $L^p, 1 \leq p < \infty$* , Izv. Akad. Nauk Armyan. SSR Ser. Mat. 18 (1983), 344-361. English transl. in Soviet Jour. Contem. Math. Anal., 18 (1985)
17. *The uniform continuity in the weighted spaces  $L^p, 1 \leq p < \infty$  of the families of operators generated by truncated kernels*, Doklady AN USSR 272 (1983), 1048-1052. English transl. in Soviet Math. Doklady 28 (1983)
18. *On the operators generated by truncated kernels in the weighted spaces*, Proc. of the All-Union Conference on the Honor of Acad. N.N. Luzin (1983)

19. *Summability and convergence a.e. of the generalized Fourier and Fourier-Haar series*, Izv. Akad. Nauk Armyan. SSR Ser. Mat. 20 (1985), 145-162. English transl. in Soviet Jour. Contemporary Math. Anal., 18 (1985)
20. *Summability of generalized Fourier series in the weighted metric and almost everywhere*, Doklady AN USSR 287 (1986), 543-546. English transl. in Soviet Math. Doklady 33 (1986), 416-419.
21. (with A.S. Sargsian) *On a complete orthonormal system of continuous functions*, Doklady AN Arm.SSR 83 (1986), 198-201 (Russian).
22. *Weighted norm inequalities for some classes of singular integrals*, Studia Math. 86 (1987), 97-130
23. *Summability of generalized Fourier series and Dirichlet's problem in  $L^p(d\mu)$  and weighted  $H^p$ -spaces ( $p > 1$ )*, Analysis Mathematica 13 (1987), 173-197.
24. *The exact measure of the sets of divergence for the Fourier series in the class of bounded complete orthonormal systems*, Doklady AN Arm.SSR 87 (1988), 3-4. (Russian)
25. *On some properties of uniformly bounded orthonormal systems*, Doklady of the seminars of I.N. Vekua Institute 3 (1988)
26. *Weighted inequalities for families of operators generated by truncated Cesaro kernels*, Izvestiya AN SSSR, ser. Math. 52 (1988), 289-311 (Russian). English transl. in Math USSR Izvestiya 32 (1989), 289-311.
27. *The Dirichlet problem in a weighted metric for the ball in  $R^n, n \geq 3$* , Dokl. Akad. Nauk SSSR 301, no.5 (1988), 1044-1048. Translation in Soviet Math. Dokl. 38 (1989), no. 1, 170-173.
28. *Summability of generalized Fourier series and their conjugate series*, Banach Center publ., Warsaw 22 (1989), 193-204.
29. (with P.I. Lizorkin) *Multipliers, bases, unconditional bases in the weighted spaces  $B$  and  $SB$* , Trudy Math. Inst. V.A. Steklova 187 (1989), 98-115. English transl. in Proc. Steklov Inst. of Math. 3 (1990), 113-130.
30. (with A.S. Sargsian) *Divergence almost everywhere of the Fourier-Ciesielski series*, Izv. Akad. Nauk Armyan. SSR Ser. Mat. 23 (1989), 403-412, English transl. in Soviet Jour. Contemporary Math. Anal., (1989), no. 4, 91-99.
31. *On a problem of S. Banach from the Scottish Book*, Proc. Amer. Math. Soc. 110 (1990), 881-887.
32. *Improving a theorem of R. Boas and H. Pollard on the multiplicative completion*, Izv. Akad. Nauk Armyan. SSR Ser. Mat. 25 (1990), 409-412. English transl. in Soviet Jour. Contem. Math. Anal., 25 (1990), no. 4, 98-101.
33. (with P.L. Ul'yanov) *Alexits problem on the divergence of orthogonal Fourier series*, Doklady I.N. Vekua Institute (1990).
34. (with P.L. Ul'yanov) *On a problem of Alexits with respect to divergence of orthogonal Fourier series*, Doklady AN USSR 316 (1991), 542-546. English transl. in Soviet Math. Doklady 43 (1991), 132-136.
35. *Divergent orthogonal Fourier series*, Mat. Sbornik 182 (1991), 985-1008. English transl. in Math. USSR Sbor. 73 (1992), 355-377.
36. *Closed minimal systems in general separable Banach spaces and in  $L^p, 1 \leq p < \infty$* ,

- Mat. Zametki 53 (1993), 51-61 (Russian). English transl. in Math Notes 53 (1993), no. 3-4, 279–286.
37. ( with J. Garcia-Cuerva and S.S. Kazarian) *On Mensh'ov's C-strong property*. Acta Sci.Math. (Szeged) 58 (1993), 249-256.
  38. ( with J. Garcia-Cuerva) *Calderón-Zygmund operators and unconditional bases of weighted Hardy spaces*. Studia Math. 109 (3) (1994), 255-276.
  39. ( with F. Soria) *On Fourier series of orthogonal systems for modified functions* C. R. Acad. Sci. Paris, t.320 ,Série I, (1995), 9-14
  40. ( with J. Garcia-Cuerva) *Spline wavelet bases of weighted spaces*. Fourier Analysis and Part. Diff. Eq., Studies in Advanced Mathematics, CRC Press, (1995), 169-184
  41. ( with J. Garcia-Cuerva) *Spline wavelet bases of weighted  $L^p$  spaces,  $1 \leq p < \infty$* . Proc. AMS, v.123 ,2 (1995), 433-439
  42. ( with F. Soria and R.Zink) *On rearranged orthogonal systems as quasibases in weighted  $L^p$  spaces* Lecture Notes in Pure and Applied Mathematics, 175, Interactions between functional analysis, harmonic analysis, and probability, ed. N. Kalton, E. Saab, S.Montgomery-Smith, Lecture Notes In Pure and Applied Mathematics, Marcel Dekker publ. V. 175 (1996), 239-247
  43. ( with J. Garcia-Cuerva and J.L.Torrea) *On the Fourier type of Banach lattices* Lecture Notes in Pure and Applied Mathematics, 175, Interactions between functional analysis, harmonic analysis, and probability, ed. N. Kalton, E. Saab, S.Montgomery-Smith, Lecture Notes In Pure and Applied Mathematics, Marcel Dekker publ. V. 175 (1996), 169-179
  44. *On the strong  $L^p$ -property for orthogonal systems and related questions* Abstracts. International Conference on "Functional Spaces, Approximation Theory, Nonlinear Analysis, Moscow, 1995, April 27- May 3, 331-332.
  45. ( with F. Soria and I. Spitkovsky) *Riemann's boundary value problem in weighted spaces with singularities* Doklady of Russian Acad. Sciences, v. 353, 6 (1997), 717–719. English transl. in Doklady Mathematics, v. 55, no. 2 (1997).
  46. ( with R.E.Zink) *Some ramifications of a theorem of Boas and Pollard concerning the completion of a set of functions in  $L^2$*  Trans. AMS 349 (1997), no. 11, 4367–4383.
  47. ( with R.E.Zink) *Subsystems of the Schauder system that are quasibases for  $L^p, 1 \leq p < \infty$*  Proc. AMS. 126 (1998), no. 10, 2883–2893.
  48. ( with J.Garcia-Cuerva, V. I. Kolyada and J.L. Torrea) *Hausdorff-Young inequalities with vector-valued coefficients and related topics* . Uspekhi Mat. Nauk 53 (1998), no. 3(321), 3–84(Russian). Translation in Russian Math. Surveys 53 (1998), no. 3, 435–513.
  49. *One of the last of the Mohicans. On the Seventieth Birthday of Professor P.L. Ul'yanov (Spanish)* Gac. R. Soc. Mat. Esp. 2 (1999), no. 1, 50–57.
  50. ( with R. Gundy) *Stopping times and local convergence for spline wavelets* SIAM J. Math. Anal. 31 (2000), no. 3, 561–573.
  51. ( with M.G.Grigrorian and F. Soria) *Mean convergence of orthogonal Fourier series of modified functions* transl. AMS 352 (2000), no. 8, 3777–3798.
  52. ( with D. Waterman) *Theorems on representations of functions by series* Mat. Sbornik, 191(2000), 123–140. English transl. in Sbornik: Mathematics, 191, 12 (2000), 1873-

1889.

53. ( with J.Garcia-Cuerva and V. I. Kolyada) *Paley type inequalities for the orthogonal series with vector-valued coefficients* Acta Math. Hung. 90(1–2), (2001), 159–192.
54. ( with S.S. Kazarian) *On the Representations of Functions of the  $L^r, 0 \leq r < 1$  Spaces, Geometry, analysis and applications (Varanasi, 2000)*, 185–201, World Sci. Publishing, River Edge, NJ, (2001), 185–201.
55. ( with A. Torchinsky ) *Subsystems of the Haar system as quasibasis in weighted  $L^p$  spaces* in Izv. Nats. Akad. Nauk Armenii Mat. 36 (2001) N4, 29–48; English transl. in J. Contemp. Math. Anal. 36(2001) N4.
56. *Necessary and sufficient conditions on a system to be a quasi-basis in weighted norm spaces*, Fourier Analysis and Related Topics, Banach Center Publ. 56, Inst. Math., Polish Acad. Sci., 2002, 69-79.
57. ( with M.I.Dyachenko) *On the divergence of multiple orthogonal series* Doklady of Russian Acad. Sciences 385, N6 (2002), 731–734. English transl. in Doklady Math. 66 (1) (2002), 115-117.
58. ( with M.I.Dyachenko) *On the sets of convergence and divergence for the multiple Fourier series* Mat. Sbornik, 193, N 9(2002), 41 - 62. English transl. in Sbornik: Mathematics, 193, 9 (2002), 1281 –1301.
59. ( with P.L. Ulyanov) *On divergent Fourier series in orthogonal systems with bounded variations* Doklady of Russian Acad. Sciences 390, N 3 (2003), 309–313. English transl. in Doklady Mathematics, 67,N3 (2003), 357–361.
60. ( with P. Cifuentes and M.I.Dyachenko) *On the essential divergence in measure of multiple Fourier series* Vestnik Moskov. Univ. Ser. I Mat. Mekh. 2003, no. 3, 22 – 29. English transl. in Moscow University Math. Bull. 58, no. 3 (2003).
61. *A complete orthonormal system of divergence* C.R. Acad. Sci. Paris, Ser. I 337, 2,(2003), 85-88.
62. ( with M.I.Dyachenko) *Sharp estimate of the measure of the set of divergence of multiple orthogonal Fourier series* Studia Math. 159 (2003), 33–50.
63. ( with E.M. Semenov) *RUC-bases and the Olevskii system* Mathematical Notes, 75 (3-4): March - April, (2004), 530-541.
64. *A complete orthonormal system of divergence* Journal of Funcional Analysis, 214,2 (2004), 284–311.
65. *The zero-one law for a complete orthonormal system* C.R. Acad. Sci. Paris, Ser. I 339, 5,(2004), 335-337.
66. ( with P. Cifuentes and A. San Antolín) *Characterization of scaling functions in a multiresolution analysis* Proc. AMS, 133, 4(2005), 1013-1023.
67. , *On the representation systems with respect to summation methods*, 72, Banach Center Publ. , Inst. Math., Polish Acad. Sci., 2006, 111-117.
68. (with P. Cifuentes and A. San Antolín) *Characterization of scaling functions* Wavelets and splines, Athens, 2005, Nashboro Press (2006), 152-163.
69. *On the Ul'yanov problem* Mat. Sbornik, 197, 12 (2006), 95–116. English transl. in Sbornik: Mathematics, 197, 12 (2006).
70. (with F. Soria) *Weights with singularities and associated weighted  $H_p$  spaces* Acta Sci. Math. (Szeged) 73, (2007), 175–192.

71. (with W. Trebels) *Shifted Jacobi multiplier sequences and transplantation between sine and cosine series* *Mathematische Zeitschrift*, 258, 1, (2007), 43–54.
72. (with E. M. Semenov, S. N. Uksusov) *Bases in the rearrangement invariant spaces* *Izvestiya Vuz. Matematika*, 552 (2008), 1–7.
73. (with A. San Antolin) Characterization of scaling functions in a frame multiresolution analysis in  $H_G^2$  spaces, *Topics in Classical Analysis in Honor of Professor Dan Waterman* World Sci. Publishing, Singapore (2008), 118–141.

### Textbooks and Lecture Notes

1. (with P.L. Ulyanov, A.N. Bakhvalov, M.I. Dyachenko, and P. Cifuentes) *Real analysis in problems* Moscow, PhysMathLit (2005), p. 416.
2. (with P. Cifuentes, E. Hernández and others) *Proceedings of the 7th International Conference on harmonic Analysis and partial Differential Equations* *Collectanea Mathematica*, Barcelona (2006).
3. (with L. De Carli and M. Milman) *Topics in Classical Analysis in honor of Professor Daniel Waterman* World Scientific Publishing, Singapore (2008).
